

FEATURE

BENEFIT

-  Low seat height
 -  • Inspires riding confidence by allowing riders feet to be firmly planted on the ground • Allows child to “dab” foot easily when off balance
-  Lightweight
 -  • Child can pick up bike and manage on their own after a tip-over or dropped bike • Easily transportable for travel
-  Quick Change Removable Battery
 -  • Removable power tool-style interface • Allows additional batteries to be used for extended ride time • Technology that allows all family members to be familiar with, and not afraid of
-  Twist Throttle
 -  • True power curve built into throttle programming • Teaches child how to operate a twist throttle and manage power output • Not a push-button toy or on/off power curve
-  Tapered Footrests
 -  • Provides comfortable foot position for confident riding
-  Speed Settings
 -  • Safety feature that allows rider to gradually increase speed as confidence develops

Low seat height

12e-

3-5 yrs old
17in" in-seam or less
Weight limit- 75lbs

 Stacyc bikes are designed to teach young riders how to ride in a fun, non-intimidating way. Everything about the bike encourages the rider to learn balance, throttle, navigation, control, and confidence.

 Stacyc patented removable lithium ion battery gives an average run time of 45 min – 1 hr. The average charge time is about the same. Having 2 batteries will allow the rider to have continuous run time all day!

 **Stacyc Warranty:**
Frame= 5yrs
Non-Electrical Parts= 1 year
Motor and electrical parts= 90 Days

16e-

5-9 yrs old
17in" in-seam or greater
Weight limit- 75lbs
